(Jeremy-myself)
(Darcy- wife)
(Derrick-stepson)
(Dillion-stepson)
(Jacob-my biological son)
(Bella- German Shepherd/family pet)
(Alicia- Darcy's friend of 30 plus years)

I WAS NEVER QUESTIONED OR ADVISED. THERE WAS AN INVESTIGATION.
I WAS NEVER ABLE TO MAKE A STATEMENT. THIS STATEMENT IS AT MY OWN MAKING FOR FUTURE USE.

January 31st 2024
Darcy had been staying was a alicia with derrek and dillion for a few days, we were in an argument about disagreeing on how to punish Derek, who had been in trouble. Recently, for stealing a iPhone from his teacher and bringing it home and throwing it in the woods. When it started getting pinged, he had been in trouble. It seemed it was getting out of control. I thought she was too lenient. She brought the boys back to the house, but went back up to her friend's alicia's so the boys could go to school. I've run four p m I discovered derek had broken into my locked bedroom again installed cigarettes. I recently had to put locks on all doors. Because he was stealing all the time.I I told him he was grounded to his room for the rest of the night. About 2 am hi i'm heard loud bang i got up out of bed. I knew immediately that Derek was trying to sneak out the window again. So I went out the back. Door around to his window or he was halfway out. He saw me and started crawling back inside his room. I immediately went back into the house. Went to his bedroom told him to shut the window. I was upset and loud. So is Derek I went back to my bedroom about 15 minutes later. I heard it again and I'm gonna do his room where he was halfway out the window and
At that point decided to call the sheriff's department my wife had told me in text messages to call the police earlier but was trying to handle it on my own so he wouldnt get in anymore trouble. Itried calling his mother and could not get ahold of her
Dillon and Jacob were sleeping upstairs well on the phone with dispatch. I explained that Derek was in the yard would not come into the house, and my dog Bella. Would not leave aside so I couldn't get her back in
I asked this batch to let the officer know that the dog was not mean. And I was trying to get her back inside. You know just keep a situation from happening
Dispatcher asked me if I wanted to remain on the phone until the officer got there and I said yes. When I saw the lights coming down the road and saw it was a sheriff's vehicle.I informed dispatch, and that's when we hung up. My son was still in the yard with Bella, I was standing on the porch. Deputy Maynard got out of his car.Bella began to run over to the car.He put his hand on his weapon, and I immediately started yelling for the deputy to get back in his car.I explained that I just got off phone with this batch.And he was relayed to message i was yelling,I told him my son's in the yard.And you're gonna pull a weapon and the deputy began to argue. I told him to get back in his car and get off my property and to get a sergeant there , i was so upset at this point loudlytelling him its my property and in the middle of nowhere and how he needed more

training and should have be able to have a fire arm and he is a liability and would eventually harm someone and when you get dispatch call relay its between a teenage boy and a parent pushing boundaries and there are no injuries especially when 3 min before you pull in you were advised of the dog situation and that it hadn't escalated why would you get out of the car and first and not speak to me and try getting my son to walk over so the dog would follow and i could put it in the house. Instead of defusing what was now a mild family problem. I have to worry about my kid my neighbors my dog being accidently being shot because you are to fucking dumb to understand how you excalded what had already became a descalated situation because instead of listening to his own dispatch he wanted to play with his firearm. 45 minutes for a sergeant to get there during the 45 minutes because it was cold i allowed maynard to put derek his vehicle. When this sergeant arrived my father had woken up who was in bad health. And was standing on the porch with me. And I demanded that Maynard stay by his car while talking to the sergeant
Everything was diffused and it explained.
Maynard had walked up to the sergeant and said, I think we need to take him in and it sergeant said why and he said that Derek said that I touched him. And appropriately, the sergeant immediately turned around and said, I call bullshit. We had just been talking about how he was manipulative, and been getting to a lot of trouble. So it was dismissed. I didn't know what to do. We couldn't get it hold of the mother. They finally got ahold of Darcy and it's like that she was extremely intoxicated. At that point, i was asked if they just wanted me to take them to school because it would be starting soon to give everyone some breathing room. And i agreed they could take them to school. And I was under the understanding that they were just going to go to school and the incident would be reported to his probation officer. The boys got ready left with the sheriffs, i them dropped my son who lived me off at school came home and fell back to sleep.That same morning, I was awakened by a phone call from Darcy say the JFS was keeping the boys because the JFS said they were taking the kids if she didn't I never gave permission or signed anything for them to kidnap my kids. We had not lived together since then. So you got her own apartment in town got her boys back and 45 days or so
JFS was involved with her for almost a year. And I've never heard nothing from the officers again. Until I was given a summons to go to court…
Since its time, Derrick had been thrown out of school permanently and has to go to. That's called for the kids are getting trouble till he graduates. After getting off probation, you got put on probation again. I don't know if it was for the the guns scare at school. Then, talking about guns at school. And as sheriffs got involved, or him stealing a knife from Walmart got him. Put back on probation, and he had to spend three miles in juvenile detention.. Tyler Manard files the complaint 30+ days later and then had an emergency TPO put in place. I dont care how hurt his feelings were but it is my property and my duty to make sure my family is safe no matter what situation is going on .They left my child with me showing clearly i wasnt a danger and for them to say i was would mean they committed a crime of leaving my kid by every law and rule in the book and to wait 30 plus days later when during that thirty days, I see my stepsons, and my wife a hundred times is ridiculous, surely points to retaliation. And how he filled out, it's a criminal complaint.

The way he worded it. What makes me look like something? I was not and weaponized it. Also, if it was such an emergency. Why was it signed on a twenty sixth of february and not filed until the fourth the march.
